

Stronger than your average floor

URelle™-Crete

Is your floor exposed to wet processing, high-temperature cleaning, chemical contamination, bacteria growth, mechanical abuse or high traffic? Get the strength your floor needs with **URelle™-Crete urethane cement**.

URelle™-Crete holds up against extreme conditions and protects your floors from:

- Intense physical abuse including heavy impact and abrasion
- Thermal shock from steam cleaning and hot water discharge
- A variety of cleaning and processing chemicals
- Bacteria growth

Floors that have both brawn and beauty

Compared to other commercial urethane cements, URelle™-Crete has fewer bubbles in the finished surface, thus providing you with a better looking floor. Whether you're using a self-leveling grade or one that's troweled, the URelle™-Crete systems all provide lower outgassing.

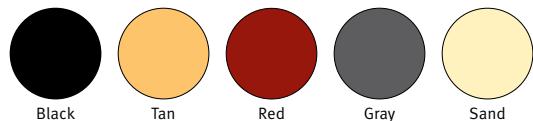

Solutions for many facilities

URelle™-Crete is ideal for facilities where durable floors are important. This includes pharmaceutical, chemical, food & beverage, meat processing, dairy and commercial kitchens. Plus URelle™-Crete meets USDA and FDA standards.

A variety of systems to meet your needs

URelle™-Crete is a three-component urethane cement system, available in 5 standard colors plus others upon request. It's supplied in several grades with varying anti-slip textures and thicknesses ranging from 1/8" to 3/8".

*The colors shown here are approximate and may vary slightly due to print.

Better for people and the planet

URelle™-Crete is the sustainable choice. Not only is it stronger and longer-lasting than the average floor, all URelle™-Crete systems are low odor, have near-zero volatile organic compounds (VOCs) and no hazardous air pollutants (HAPs).

- No offensive odor
- Near-zero VOCs
- No hazardous air pollutants (HAPs)

DSM: Bright Science. Brighter Living™

URelle™-Crete urethane cements are products of Royal DSM N.V., a global science-based company active in health, nutrition and materials. DSM is a trusted leader in delivering innovative solutions that nourish, protect and improve performance in global markets such as food and dietary supplements, personal care, feed, pharmaceuticals, medical devices, automotive, paints, electrical and electronics, life protection, alternative energy and bio-based materials.

DSM manages its business with a focus on the triple bottom line of economic performance, environmental quality and social responsibility, which it pursues simultaneously and in parallel. To learn more, visit www.dsm.com.
